FOR IMMEDIATE RELEASE

State Route 9 Sight Improvement Project

Santa Clara County— The California Department of Transportation (Caltrans) will install approximately 1200 feet of K-rail on State Route 9 east of Pierce Road near Congress Springs Lane. This cement barrier will be utilized to provide one-way traffic control in both directions of SR-9 for a safety project along three segments of State Route 9 between Heather Heights Road and Hakone Gardens near Saratoga. This project will improve sight distance for motorists and bicyclist traveling through this corridor.

Work being performed Monday through Friday will occur during the daytime from 6:30 a.m. to 3:30 p.m.; however, some weekend or evening work is possible. **Caltrans utilizes one-way traffic control to allow motorists to safely navigate from both directions on a two lane highway down to one lane that is controlled by an around the clock (24 hrs) signal light.** The project is expected to be completed in late spring, 2016.

Advance warning message signs are in place to assist motorists traveling in the area.

Motorists are advised to use caution when traveling through the area and please "Slow for the Cone Zone."
